Prompt Engineering for Web Developers

Intro to Claude AI

Vibe Coding with Cursor AI

Jul 11, 2025

**John Wang**

has successfully completed the online, non-credit Specialization

# Generative AI for Web Development

In this specialization, learners have developed practical skills for using generative AI throughout the web development process. They have learned how to prompt large language models effectively, generate and debug code with AI support, and design interactive applications that integrate intelligent features using tools like Claude AI and Cursor. Through hands-on projects, learners have demonstrated their ability to code more efficiently and build AI-powered web experiences that reflect modern development workflows.
